Program and admissions comparison worksheet

Record each program's status, sources, prerequisites, application cycle, costs and open questions. One row per program and campus. No ranking.

This worksheet helps organize a decision and its evidence. Enter the exact source, date and context. Unknown information remains an open question. The worksheet does not establish admission, professional authorization, legal compliance or financial viability. Keep completed records privately and do not send client or patient information to this website.

HOW TO USE IT

- Use one row per program and campus. Give each a row number (P1, P2…) and keep it the same on every page or sheet.
- Record the exact source and the date you checked it for every entry.
- Unknown information stays an open question: write it in the questions column instead of guessing.
- There is no ranking formula. The worksheet records evidence; it does not score programs.

KEEP THESE SEPARATE

- Program status from the responsible accreditor (for naturopathic programs, CNME's current listing).
- Admissions requirements from the school.
- Professional licensing from the regulator where you intend to work.
- Costs with their billing period, currency and student category. Never add USD and CAD amounts.

01 Program, campus, status, source and date

No.	**Program and credential** Exact name as the school lists it	**Campus or delivery** City, campus or format	**Status as listed** Exact wording; never a yes/no	**Status source** Organization and page	**Date checked** YYYY-MM-DD	**Conditions or notes** Probation, candidacy, campus limits…

P6						

Free file · personal and single-practice use · no resale

02 Prerequisites, application cycle, documents and questions

Keep requirements and unresolved questions together for each program. Ask admissions to clarify uncertainty before making a commitment. Use the same row numbers as page 1.

No.	Program Short name	Required prior study and prerequisites	Application cycle and deadlines	Documents required	Questions for admissions	Source and date

- Compare amounts only when the period and currency match. Do not compare a quarterly charge with an annual amount or add USD and CAD without an explicit conversion assumption.
- Use separate lines for quoted charges and your own estimates. A calculated total is not an official cost-of-attendance statement.
- For transparent arithmetic across one to three scenarios, use the education-cost calculator: naturopathicmedical.com/tools/school-cost/
